

Installer - Refactor #14449

Hostname check should use Factor binary instead of library

04/04/2016 07:09 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Dominic Cleal	
Category: foreman-installer script	
Target version: 1.12.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman-installer/pull/171	
Description	
The installer ships a hostname check at checks/hostname.rb, which requires the 'factor' library to get the current parsed hostname. This should be replaced for AIO support to not require Factor as a library, but instead call factor hostname or an equivalent.
