

Installer - Bug #14942

puppet group fails when added to foreman user before puppetserver installation

05/06/2016 04:53 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee: Dominic Cleal	
Category: Foreman modules	
Target version: 1.12.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>When performing a full installation of Foreman on a Debian system with Puppet AIO, the puppet group gets created during the Puppet run.</p> <p>Previously in a non-AIO installation, the group would probably be created during installation of the Puppet <i>agent</i> package, which is an installer dependency.</p> <pre>[ERROR 2016-05-06 08:32:42 main] Could not set groups on user[foreman]: Execution of '/usr/sbin/usermod -G puppet foreman' returned 6: usermod: group 'puppet' does not exist [ERROR 2016-05-06 08:32:42 main] /Stage[main]/Foreman::Config/User[foreman]/groups: change from to puppet failed: Could not set groups on user[foreman]: Execution of '/usr/sbin/usermod -G puppet foreman' returned 6: usermod: group 'puppet' does not exist [WARN 2016-05-06 08:37:57 main] /Stage[main]/Puppet::Server::Install/Package[puppetserver]/ensur e: created [WARN 2016-05-06 08:38:20 main] /Stage[main]/Foreman_proxy::Config/User[foreman-proxy]/groups: g roups changed '' to ['puppet']</pre> <p>However on an RPM AIO installation the ordering happens to be a bit different:</p> <pre>[WARN 2016-05-05 13:09:47 main] /Stage[main]/Puppet::Server::Install/Package[puppetserver]/ensur e: created [WARN 2016-05-05 13:09:48 main] /Stage[main]/Puppet::Server::Config/File[/opt/puppetlabs/puppet/ cache/reports]/group: group changed 'root' to 'puppet' [WARN 2016-05-05 13:11:37 main] /Stage[main]/Foreman_proxy::Config/User[foreman-proxy]/groups: g roups changed '' to ['puppet'] [WARN 2016-05-05 13:12:47 main] /Stage[main]/Foreman::Config/User[foreman]/groups: groups change d '' to ['puppet']</pre>
