Installer - Bug #15804

adding foreman user to puppet group fails if puppetserver disabled

07/22/2016 06:09 PM - Tom Downes

Description

The solution to [#14942](#14942) does not appear to work if the user does not enable puppet. Here is my foreman-answer.yaml file

```
---
foreman:
custom_repo: true
server_ssl_key: 'mykey_hidden'
server_ssl_cert: 'mycert_hidden'
server_ssl_chain: 'mychain_hidden'
foreman_proxy: false
custom_repo: true
puppet: false
```

I don't use this type of issuetracker much. The lines in the above YAML are properly indented on my host. :)
