Target version:	
Difficulty: easy	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Squid is configured with 100 MB size, this is too small	
<pre>cache_dir aufs /var/spool/squid 10000 16 256</pre>	
We need more sane default something like	
<pre>cache_dir aufs /var/spool/squid 3000000 128 256</pre>	
Please make this a configurable option in the installer.	

History

#1 - 07/22/2019 03:23 PM - Ewoud Kohl van Wijngaarden

- Category set to Foreman modules
- Difficulty set to easy
- Triaged changed from No to Yes

This is the only line that wasn't set as a parameter in the conversion to voxpupuli/squid:
