

Installer - Feature #23101

Expose telemetry parameters in settings.yaml

04/03/2018 11:38 AM - Lukas Zapletal

Status: Closed	
Priority: Normal	
Assignee: Marek Hulán	
Category: Foreman modules	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/foreman/puppet-foreman/pull/637	
Description	
It would be great to have these, although we do not plan full end-to-end installer support for telemetry. Users are supposed to deploy statsd/prometheus by themselves for now.	
https://github.com/foreman/foreman/blob/develop/config/settings.yaml.example#L99-L118	
Relevant options:	
<ul style="list-style-type: none">telemetry - prefixtelemetry - prometheus - enabledtelemetry - statsd - enabledtelemetry - statsd - host	
Other options are not relevant for production use or not relevant at the moment (statsd protocol is not yet used).
