<b>Target version:</b>		
<b>Triaged:</b>	No	
<b>Fixed in Releases:</b>		

#### Description

Hello,  
I use the puppet-foreman repo (<https://github.com/theforeman/puppet-foreman>) for the setup.  
it is failing with the error below:

```
Error: Execution of '/usr/bin/apt-get -q -y -o DPkg::Options::=--force-confold install foreman-dynflow-sidekiq' returned 100: Reading package lists...
Building dependency tree...
Reading state information...
E: Unable to locate package foreman-dynflow-sidekiq
Error: /Stage[main]/Foreman::Install/Package[foreman-dynflow-sidekiq]/ensure: change from 'purged' to 'present' failed: Execution of '/usr/bin/apt-get -q -y -o DPkg::Options::=--force-confold install foreman-dynflow-sidekiq' returned 100: Reading package lists...
Building dependency tree...
Reading state information...
E: Unable to locate package foreman-dynflow-sidekiq
```

#### My repos:

1. This file is managed by Puppet. DO NOT EDIT.
2. foreman  
deb <https://deb.theforeman.org> bionic 1.24
3. This file is managed by Puppet. DO NOT EDIT.
4. foreman-plugins  
deb <https://deb.theforeman.org> plugins 1.24

After checks, the packages are not present here <https://deb.theforeman.org/pool/bionic/1.24/f/foreman/>.  
But are present for the version 2.0 => <https://deb.theforeman.org/pool/bionic/2.0/f/foreman/> .

#### History

##### #1 - 04/16/2020 05:38 PM - Anonymous

- Tracker changed from Bug to Support
- Project changed from Packaging to Installer
- Category changed from Debian/Ubuntu to Foreman modules
- Status changed from New to Rejected

As the README of the module states: "This module targets Foreman 2.0+."

Use < 14 for older Foreman versions.
