Description

It should be possible to deploy candlepin and the katello application without sharing any files. This allows deployment on separate servers and scaling out in the long term.

History

#1 - 07/29/2020 01:14 PM - Ewoud Kohl van Wijngaarden

- Tracker changed from Refactor to Feature

- Subject changed from Split Candlepin server and client certificates into separate classes in puppet-certs to Allow using katello::candlepin and katello::application without sharing any files

- Description updated
