Bugzilla link:		**Red Hat JIRA:**	

Description

As mentioned in the plan at https://community.theforeman.org/t/the-road-to-making-puppet-optional/17983 all fact parsers should move to core, this means

- Rhsm parser from katello
- ansible parser
- chef parser
- salt parser

IMHO we can copy the classes with the name scope as they are and open PRs against the plugins removing them. Further refactoring can be done as a follow up.

Subtasks:

Feature # 32517: Move RHSM parser to Core	**Closed**
Feature # 32518: Move Ansible Parser to Core	**Closed**
Feature # 32548: Move Salt parser to Core	**Closed**
Feature # 32558: Move Chef parser to core	**Closed**

Related issues:

Related to Ansible - Bug #32494: remove fact parser	**Closed**
Related to Katello - Feature #32524: Remove rhsm parser and importer	**Closed**
Related to Salt - Feature #32550: remove fact parser and importer	**Closed**
Related to Chef - Feature #32559: Remove fact parser and importer	**Closed**
