Pull request:	
Description	
Foreman plugin RPMs have provides of the form "foreman-plugin-NAME", we can use these instead of varying the RPM name prefix by OS version (https://github.com/theforeman/puppet-foreman/blob/fde65587d2ee609dda5bf0c2ee1a6a5715e1c630/manifests/plugin.pp#L25 , https://github.com/theforeman/puppet-foreman/blob/fde65587d2ee609dda5bf0c2ee1a6a5715e1c630/manifests/params.pp#L96)
