

## Installer - Bug #33109

### Date used by katello-certs-check should be formatted correctly by program

07/22/2021 02:08 PM - Birkir Hjartarson

<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/foreman/foreman-installer/pull/729">https://github.com/foreman/foreman-installer/pull/729</a>	
<b>Description</b>	
Original post in support forum: <a href="https://community.theforeman.org/t/date-used-by-katello-certs-check-should-be-formatted-correctly-by-program/24527">https://community.theforeman.org/t/date-used-by-katello-certs-check-should-be-formatted-correctly-by-program/24527</a>	
Problem: when foreman-installer runs, it runs katello-certs-check as part of the run, which in turn runs some date check. The certs-check completes successfully and everything is fine, but theres always an error that gets printed on my system due to being set to Icelandic locale: date: invalid date 'júl 20 14:36:21 2021'	
Expected outcome: Date command used by katello-certs-check should be locale-agnostic, like using standard iso format and not relying on servers locale settings	
Foreman and Proxy versions: "Error" has popped up for a few versions now, latest while upgrading to 2.5 / 4.1	
Foreman and Proxy plugin versions:	
Distribution and version: CentOS 7	
Other relevant data:	
Output from locale command: LANG=en_US.UTF-8 LC_CTYPE="is_IS.UTF-8" LC_NUMERIC="is_IS.UTF-8" LC_TIME="is_IS.UTF-8" LC_COLLATE="is_IS.UTF-8" LC_MONETARY="is_IS.UTF-8" LC_MESSAGES="is_IS.UTF-8" LC_PAPER="is_IS.UTF-8" LC_NAME="is_IS.UTF-8" LC_ADDRESS="is_IS.UTF-8" LC_TELEPHONE="is_IS.UTF-8" LC_MEASUREMENT="is_IS.UTF-8" LC_IDENTIFICATION="is_IS.UTF-8" LC_ALL=is_IS.UTF-8
