<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b> <a href="https://github.com/foreman/foreman-installer/pull/757">https://github.com/foreman/foreman-installer/pull/757</a>	
<b>Description</b>	
Ohai,	
<a href="https://github.com/foreman/foreman-installer/blob/ae449b051d6e3648bb6dcb34e12f2bd7bc7bf6f8/hooks/pre/10-reset_data.rb#L54-L57">https://github.com/foreman/foreman-installer/blob/ae449b051d6e3648bb6dcb34e12f2bd7bc7bf6f8/hooks/pre/10-reset_data.rb#L54-L57</a> currently reads:	
<pre>def reset_candlepin   execute!('rm -f /var/lib/candlepin/.puppet-candlepin-cpdb*', false, true)   empty_db_in_postgresql('candlepin') end</pre>	
However, in reality, the files are called:	
<pre># ls -alh /var/lib/candlepin/.puppet* -rw-r--r--. 1 root root 25 Mar 28 10:53 /var/lib/candlepin/.puppet-candlepin-cpdb-create-done -rw-r--r--. 1 root root 6 Mar 28 10:53 /var/lib/candlepin/.puppet-candlepin-rpm-version</pre>	
Not the missing "cpdb" in the second filename. Thus the file is not removed, and puppet-candlepin doesn't try to migrate the CP database.
