Revision 98463ffd - 06/03/2022 01:35 AM - Eric Helms

Fixes #35005: Drop setting Pulp client certificate settings

These settings were introduced with Pulp 2 and carried over to Pulp
3 before we introduced client authentication support in smart_proxy_pulp.
The support for using Foreman client certificates to talk to Pulp 3 was
introduced in Foreman 3.0. This is now safe to drop.

Revision 6ff5323e - 06/08/2022 06:48 PM - Eric Helms

Refs #35005: Drop certs::pulp_client

These certificates were used to communicate with a Pulp 2 instance
and subsequently Pulp 3 without client authentication support. Client
authentication support was added in Foreman 3.0 and now Foreman
client ceritificates are used to communicate with Pulp 3. These
certificates are no longer needed or used.

Revision 5cd80262 - 06/16/2022 11:53 AM - Evgeni Golov

Refs #35005 - use foreman client certs for pulp-cli auth

`puppet-certs` dropped the `pulp_client` certs, so let's use use the
`foreman` ones instead
