Description
Now that EL7 is dropped, there's no point in keeping it anymore. All supported platforms use a dedicated tftp daemon.

Fixes #35353 - Drop xinetd support

Only EL-7 was using xinetd support, everything else uses a daemon. This
aligns on daemons.

There is no migration provided for EL 7. It is up to the admin to ensure
xinetd is stopped.

Revision 8fef74aa - 08/30/2022 10:39 AM - Ewoud Kohl van Wijngaarden

Refs #35353 - Drop xinetd support

puppet-tftp has dropped the dependency on xinetd so no more specific
version is needed.
