Description		
if one tries to use --enable-foreman-proxy-plugin-ansible without --enable-foreman-proxy-plugin-remote-execution, installer fails with:

Revision f2479913 - 12/01/2022 10:31 AM - Evgeni Golov

Fixes #35809 - always enable rex when enabling ansible

sp_ansible depends on sp_rex to work, but we never properly setup the later unless the user **explicitly** also asks for it
