Triaged:	No	Found in Releases:
Bugzilla link:		Red Hat JIRA:
Pull request:	https://github.com/theforeman/puppet-puppet/pull/857	

Description

The autosign file may contain information that should be protected. The content can be built dynamically so relying on it to be tagged as sensitive is a non-starter. Coupled with either a file or raw content can be sent over, disabling `show_diff` is probably the only real solution for now.
