Triaged: No	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request: https://github.com/theforeman/puppet-foreman_proxy_content/pull/467	
Description	
There is an open PR in foreman-documentation to configure the number of Pulpcore API workers on Foreman Server: https://github.com/theforeman/foreman-documentation/pull/2565	
We want to hold off documenting this because "writing directly to custom-hiera.yaml and running foreman-installer" is not officially supported by Foreman/Satellite/orcharhino.	

History
