

Ansible - Bug #37342

Documentation button on Ansible variable create page, redirects to puppet documentation

04/11/2024 07:39 AM - Girija Soni

Status: Ready For Testing	
Priority: Normal	
Assignee:	
Category:	
Target version: foreman_ansible-12.0.6	
Difficulty:	Fixed in Releases:
Triaged: No	Found in Releases:
Bugzilla link: 2270920	Red Hat JIRA:
Pull request: https://github.com/foreman/foreman_ansible/pull/711	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=2270920	
Description of problem:	
Version-Release number of selected component (if applicable): Satellite 6.15.0/stream	
How reproducible: Always	
Steps to Reproduce: 1. Navigate to Configure -> Ansible -> Variables -> New Ansible Variable 2. Select the Override checkbox, and "Specify Matchers" option appears 3. Click on Documentation button next to "Specify Matchers"	
Actual results: https://access.redhat.com/documentation/en-us/red_hat_satellite/6.16/html/managing_configurations_using_puppet_integration_in_red_hat_satellite/configuring_puppet_smart_class_parameters_managing-configurations-puppet	
Expected results: It should redirect to Ansible documentation for variables instead	
Additional info: On 6.14.3, the same behavior is observed, so it does not appear to be a regression	

History
