Installer - Bug #8369

Error when re-running foreman-installer after upgrade from 1.6.2 to 1.7rc1 '"foreman::plugin::discovery::params::install_images" is not a boolean. It looks to be a String'

Description

As per the manual, after upgrading 1.6.2 to 1.7rc1 I reran the foreman-installer.

This error's out:

```
root@foreman:~# foreman-installer --noop --dont-save-answers --verbose
[ INFO 2014-11-12 15:35:41 verbose] Executing hooks in group boot
[ INFO 2014-11-12 15:35:41 verbose] All hooks in group boot finished
[ INFO 2014-11-12 15:35:41 verbose] Executing hooks in group init

boolean.  It looks to be a String
[ERROR 2014-11-12 15:35:42 verbose] Parameter foreman-plugin-discovery-install-images invalid
```

The same error came along in the RH BugZilla #1054362, and I too can't do hammer ping (but we just have Foreman, not Katello).

#3 - 02/29/2016 07:51 AM - Lukas Zapletal

- Project changed from Discovery to Installer

- Category changed from Discovery plugin to Foreman modules

- Status changed from New to Closed

Hello, is this still relevant? I am closing as you provided a workaround and we refactored the code already in the latest stable release.

#4 - 02/29/2016 07:53 AM - Dominic Cleal

- Status changed from Closed to Rejected

Seems valid, but unlikely to be fixed now. (Please don't use the "Closed" status Lukas if it's not been fixed by a patch.)
